

# Roundhouse Nr

## Specifications

### Crop

Lettuce

### Market Segment

Iceberg

### Disease Resistance

High Resistance: Bl:1-27,29,32, Nr:0

Intermediate Resistance: LMV:1

### Features

- Suitable for Qld in winter
- Upright rounded heads
- Good head formation
- Cool weather autumn/spring harvest season for southern states
- Traditional Australian large green Iceberg lettuce

### Description:

ROUNDHOUSE Nr is a large Iceberg lettuce, with upright round heads in a traditional Australian larger style. Suggested for autumn/spring harvest in southern states and for winter in Queensland. ROUNDHOUSE Nr is a very uniform variety. Its upright growth allows less ground contact and reduces the risk of lower leaf rots. It has resistance to Downy Mildew (Bl), Currant Lettuce Aphid (Nr) and Lettuce Mosaic Virus (LMV).

*For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.*

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
